

NAME: _____ DATE: _____

#: _____

TEK 5C TEST:

- 1) What is a row called on the periodic table?
 - a) group
 - b) column
 - c) level
 - d) period
- 2) What is a column on the periodic table?
 - a) level
 - b) period
 - c) group
 - d) column
- 3) If you go left to right or right to left, the metallic character of an element doesn't change on the periodic table.
 - a) true
 - b) false
- 4) The group an element is in determines the number of _____ it has.
 - a) protons
 - b) valence electrons
 - c) nuclei
 - d) neutrons
- 5) The last group in the periodic table, # 18, is also known as the...
 - a) metalloids
 - b) noble gases
 - c) transition metals
 - d) poor metals
- 6) What is hydrogen?
 - a) nonmetal
 - b) metalloid
 - c) alkali metal
 - d) metal
- 7) The period an element is in on the periodic table determines the number of valence levels.
 - a) true

b) false
